

Data submitted in addition to the POD/POC report – desired format

1 Company Experience in the Field

- 1.1 All relevant experience – additional to the tests detailed in the POD\POC report
- 1.2 Team overview

2 System Overview - in addition to the POD/POC report

- 2.1 Principle of Operation
- 2.2 Projected performance
- 2.3 System architecture – with reference to the system version used for the experimentation detailed in the POD\POC report
- 2.4 Main system components – with reference to the system version used for the experimentation detailed in the POD\POC report
- 2.5 Envisioned commercial system configuration(s) (including variants)
- 2.6 System capabilities and features
- 2.7 Envisioned Operation and Maintenance methods – Current & Future design goal
- 2.8 Safety considerations

3 Product Maturity and Roadmap – additional to the information detailed in the POD\POC report

- 3.1 Project Status
- 3.2 Product Road Map
- 3.3 Regulatory Compliance – Current & Future design goal
