

Technical Proposal Form for the POD/POC report – desired format – in accordance to Appendix C

The following is provided as a desired format for the Technical Proposal Form. In any case the report must cover all aspects required in Appendix C.

1 Experiment background

- 1.1 Experiment background
- 1.2 Involved parties

2 System used during the experimentation - Overview

- 2.1 Principle of Operation
- 2.2 Projected performance
- 2.3 System architecture
- 2.4 Main system components
- 2.5 Safety considerations

3 Experiment Description & Results - see also Appendix C

- 3.1 Experiment Location and Set-up including monitoring means
- 3.2 Test scenarios and Vehicle types used
- 3.3 Experiment results
- 3.4 Malfunctions, availability issues, other aspects of importance

4 Availability and reliability report – according to Appendix C

- 4.1 System used for availability and reliability assessment (relate to version used in Paragraph 1 - 3) - similar to above Paragraph 2
- 4.2 Experiment Description and Results - similar to above Paragraphs 1 and 3
- 4.3 Malfunction investigation reports

5 Risk Analysis Report – according to Appendix C
